- Warehousing product for future use
- Decommissioning space
- Returning office to landlord per originating lease terms
- New office caseloads, conference and training room furniture and seating. Coordination with multiple trades people and vendors during installation process.

Bayada

Construction and space conversion

Project Overview

Bayada Home Health Care is New Jersey based nursing services provider with office locations throughout the country. RSI's sister company, Valuebiz Office Furniture, presented and developed a standardized product program to furnish over 94 Bayada offices nationwide.

RSI has been working with Bayada for several years in outfitting existing offices as well as managing the expansion of multiple office locations. Our team of designers and project managers curated standard finishes and furniture needs that worked to bring the vision of each unique space to life. We proposed multiple furniture options and alternate options to our client, undergoing multiple meetings with the client and respective selected vendors to determine final finishes and furniture selections as well as the project timeline and budget.

Installations included private office, seating, conference, training room, benching, filing, workstations, seating, and reception furniture. The project is part of an on-going partnership, with new offices opening on a regular basis.
