- Project management
- Vendor management
- FF&E
- Interior design
- Test fit

Features

- FF&E Decommissioning
- Relocation of confidential medical files
- New furniture installation
- Vendor occupancy management

PHC

Taking care of those who take care of seniors

Project Overview

PHC Home Health is a Medicare-certified agency based in North and South Carolina that provides skilled nursing, rehabilitation therapies, and personal care services to adults and seniors in their homes. Founded in 2003, they aim to help patients maintain independence and avoid institutional care by offering 24/7 assistance with daily living activities (bathing, dressing, meals) and specialized care.

In this particular project, the client was leaving their origin office and hired movers directly. However, they needed extra help with the relocation of files and furniture to move over. RSI was hired to manage the decommission and movement of confidential medical files for this healthcare provider. RSI also managed all vendors on behalf of the client, and coordinated the installation of the new furniture with other vendors.

Our team of designers and project managers worked alongside the team at PHC to curate finishes and furniture needs that worked to bring the vision of each unique space to life. We proposed multiple furniture options and alternate options to our client, undergoing multiple meetings with the client and respective selected vendors to determine final finishes and furniture selections as well as the project timeline and budget.
